

IMPORTANT! Please read all instructions before installing.

Thank you for purchasing a Shakespeare antenna product. Shakespeare works hard to build reliability and durability into all of its products for maximum customer satisfaction.

The Galaxy® 5235-XT is an AM/FM antenna of 8' overall length with a 20' cable with Motorola type plug attachment.

INSTALLATION INSTRUCTIONS

Choose a mounting location that is as high as feasible, as free as possible from obstructions and as far as possible from other antennas and strong sources of RF.

Suggested mount is Shakespeare 4187 or 5187 Extra Heavy Duty Ratchet Mount. Mount the antenna according to the directions supplied with the mount you choose.

Connect the antenna's cable to your AM/FM radio and plug the Motorola type plug into the antenna jack. Coil any excess cable in an out-of-the-way place.

The antenna's cable can be lengthened with a 4352 AM/FM 10' Extension Cable Kit (sold separately).

CLEANING INSTRUCTIONS

To clean the antenna, use mild dishwashing liquid (one that is not harsh to the hands and *without* ammonia) in lukewarm water.

WARNING: Do not let paint solvents, cleaning solvents or adhesive caulking come in contact with the antenna. Chemicals in these materials might destroy the finish.

SUPPLIED PARTS:

1 Antenna assembly

TECH TIP: This antenna will read "open circuit" when tested with an ohm meter or continuity tester.
