MOTORIZED ANTENNA MOUNT STYLE - 9187-MM

4-WAY ANTENNA MOUNT

Engineered for dependable performance and effortless efficiency, Shakespeare's Marine Motorized Mount delivers unmatched control and reliability for demanding marine environments. Designed with marine-grade materials and sealed for all-weather performance, this rugged mount ensures long-term durability even in the harshest saltwater conditions.

Its motorized tilt system allows antennas to be raised or lowered, while minimizing the need for manual handling. With sleek design, shock-resistant construction, and effortless push button operation, the Marine Motorized Mount is the ideal solution for convenient, secure antenna deployment on any vessel.

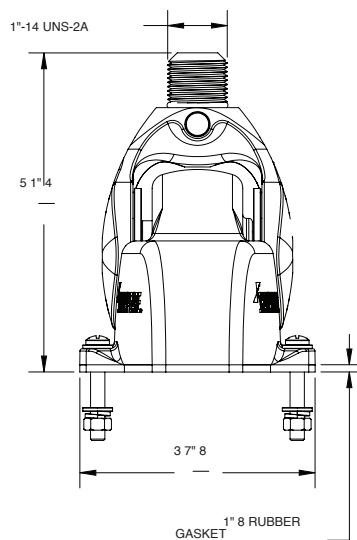

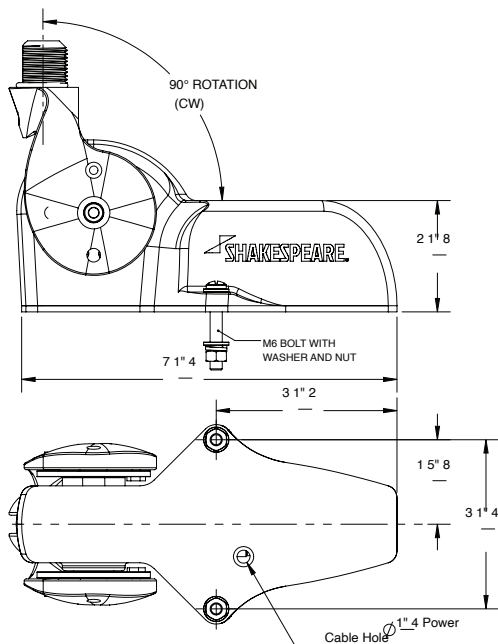

BUILT FOR THE MARINE ENVIRONMENT.

Premium Stainless Steel Construction. Push-Button Convenience.
