

RV 120-P
STYLE -427-N
1.5m FIBREGLASS VHF ANTENNA

Shakespeare® 427-N is a classic 1.5 m marine VHF antenna engineered for dependable performance. Its durable fibreglass tube features a smooth gloss-painted finish for a clean appearance.

427-N antenna is supplied with 6 m of cable and a standard 1”-14 nylon ferrule at the base for straightforward installation. With an omnidirectional radiation pattern, vertical polarization, and 50-ohm impedance, the 427-N is designed to deliver consistent VHF communication in demanding marine environments.

Designed for powerboats and workboats.

SHAKESPEARE®

Fibreglass VHF Antenna

APPLICATIONS:

- Powerboats
- Fishing Boats
- Commercial/Work Boats

FEATURES/BENEFITS:

- Reliable VHF communication - features 3 dB gain and 5 MHz bandwidth for dependable marine communications
- Durable fibreglass construction designed to withstand harsh marine conditions
- Smooth gloss-painted finish
- Brass and copper elements for extra performance
- PL-259 connector and 6m RG58 cable included for convenient installation
- Omnidirectional radiation pattern provides 360° coverage
- Vertical polarization, and 50-ohm impedance for compatibility with standard VHF system
- 50 W power rating for dependable operation
- Complements Shakespeare 5350-N (MD-24)

SPECIFICATIONS:

Model Number	Description	Height	Frequency (MHz)	Gain (dB)	Suggested Mount
427-N	VHF 3DB 1.5M F/G Antenna, 1''-14 Nylon Ferrule, 6M RG58, PL259 Connector, 156-162 MHz	1.5 m	156-162MHz VSWR <1.5:1 (at resonant point)	3	4186, 4721 or 495-B
